

NURIN IMLANI | CLINICAL HUNTER

THE 2026 RIYADH CLINIC COMPLIANCE BLUEPRINT

A Clinical Lead's Guide to Inspection-Ready Staffing and Mumaris+ Linkage.

| Staffing Health Dashboard

- ✓ **Mumaris+ Alignment:** Verified Professional Registration for all staff.
- ✓ **90-Day Linkage:** All staff linked via Qiwa and SCFHS within regulatory windows.
- ✓ **Machine Credentialing:** Documented competency for Candela/Cynosure/Surgical devices.

| The "Nurin Vetting" Scorecard

Why Clinical Hunting outperforms standard recruitment for high-acuity clinics.

Metric	Standard Recruiter	Nurin Imlani (Clinical Hunter)
DataFlow Audit	Latest degree check only.	Full History PSV. Verifying every critical credential.
SCFHS Ranking	Basic eligibility check.	Specialist Match. Ensuring rank matches MOH license sub-type.
Clinical IQ	Keyword matching.	Technical Interrogation. Tested on Candela/Cynosure/OR equipment.
MOH Readiness	Paper-pushing.	Audit-Ready Folders. Ready for immediate site visits.

Surgical Precision (Ortho/OR Focus)

For Hip/Knee replacements, general nursing isn't enough. I source specialists with KSMC-level proficiency to ensure surgical outcomes and safety.

2026 Regulatory Red Flags

Stay ahead of the MOH 937 reporting app and unannounced site visits.

1. The Yellow Nitaqat Trap

Clinics in Yellow cannot transfer staff locally. I provide Track B (Manpower) solutions to maintain operations while you stabilize your rating.

2. Void Malpractice Insurance

If a nurse is not linked on Mumaris+, your insurance coverage may be legally void during a complication. I verify linkage within 48 hours of hire.

3. Machine Compliance

MOH now audits specific machine certifications. Using a non-certified technician on a high-class laser is an immediate Tier-1 violation.

**"Don't wait for the inspector to find the gap.
Let a Head Nurse find it first."**
